

## Companies that Used Asbestos

Below is a partial list of companies that manufactured products that contained asbestos or used asbestos in the manufacturing process and are responsible for causing mesothelioma. There are hundreds more. If you do not know how you got mesothelioma, we will use this list to help us find out. If you think you worked with any products made by these companies, contact us to discuss more specific information about how those products may have contributed to cause your mesothelioma or lung cancer.

Many companies that made, sold, or distributed asbestos-containing products are still in business and thriving today, and we can file a lawsuit on your behalf to recover compensation from these companies through the court system. Still others were either forced out of business or chose to reorganize under the protection of the US bankruptcy system, and therefore they have bankruptcy trusts set up to pay people who got mesothelioma from their products.

## Companies Sued for Asbestos

- 3M Company
- 84 Lumber
- Advance Auto Parts, Inc.
- Afton Pumps Inc.
